

Why Hinge Health

Hinge Health	Other MSK solutions
Human-centered clinical care Physical therapist led care who create, monitor, adjust and personalize care plans	Limited human interaction and leans into software-only approach
Easy access to care for all members Use anywhere, anytime from member's own device or provided tablet	Fragmented experience. Not always available on personal device. May require separate tablet
A trusted and safe product Developed and maintained in the United States prioritizing security and privacy with all data being kept in the USA, HIPAA compliant and SOC2 certified	Safety and privacy not guaranteed with overseas development or with a third party vendor solutions
Extensive exercise variety to address full body Integrated program with full body care to address multiple body parts	Limited exercises only to select body parts and cannot treat more than one body part at a time
