

Know Your Medical FSA

Eligible and Ineligible Expenses

Medical flexible spending accounts (FSA) and health reimbursement accounts (HRA) are IRS sanctioned benefits, meaning you can use pre-tax dollars to cover eligible expenses. The IRS states that eligible expenses must be primarily to alleviate a physical or mental defect or illness, such as diagnosis, cure, mitigation or treatment of a disease, or for treatments affecting any part or function of the body. You can pay out-of-pocket or be reimbursed for medical expenses such as prescriptions and dental or vision expenses, as well as medical deductibles or co-insurance which are not covered by other healthcare benefits.

To help you better understand what is and isn't eligible for reimbursement (from an FSA or HRA) we've developed the following list. It is not meant to be all-inclusive, and other expenses not specifically mentioned may also qualify.
