

Oncology Support

EVHC works with American Health Holding (AHH) to bring our clients a full-service oncology program that provides patient-centric support focused on the clinical, financial, and emotional needs of members to improve outcomes.

Oncology Care Integration Program

AHH's multi-disciplinary team assesses cancer type and stage, prognosis, cultural and economic needs, and family/caregiver involvement to help improve members' health and quality of life, lower rates of complications, reduce gaps in care, and control cost.

They also provide care coordination and side effect management by working collaboratively with providers to mitigate toxicities, improve treatment compliance, and control disease symptoms.

Program Highlights

Utilization Management

Medical necessity review for chemotherapy and radiation treatments and proactive review of all treatment plans using nationally recognized, evidence-based clinical criteria

Case Management

Oncology nurse specialists provide education, decision-making support, side-effect management, and care coordination to help reduce gaps in care

Clinical Claim Audit

Review for volume discrepancies, over prescribing or prescription misuse, and overbilling

Negotiations

Negotiation support—including provider sign-off—for chemotherapy and radiation claims

Reporting and Outcomes

Plan-of-treatment reports as well as monthly and quarterly reporting

Oncology Expertise

Expert support from a physician panel, including board-certified oncologists
