

# Keep it Simple: Auto Reimbursement

Auto reimbursement allows EVHC plan participants with an FSA and/or HRA to obtain reimbursement for qualifying medical expenses without the need to file a paper claim.

## Here is How it Works.

### STEP 1 →

Members pay providers for services and prescriptions.

### STEP 2 →

Every Week: EVHC pulls a data file with information on all member medical claims and checks to see if members are due for reimbursement through their FSA and/or HRA.

### STEP 3 →

Every Month: EVHC receives data from the prescription carrier with information on prescription co-pays paid by the member.

### STEP 4

EVHC issues reimbursements to the member as needed.

It's just that easy. No fuss, no muss. No paper, no postage, and no fax machines for members to deal with to get their qualified claims reimbursed through their FSA or HRA benefits.

Disclaimer: Auto Reimbursement is not available for members participating in the Debit Card Program, members with secondary insurance coverage, or members who have waived medical coverage due to coverage under an alternative Health Care Plan.

**Talk to your Client Manager to get your members set up for automatic reimbursement.**
