

Illuminating the Path to Wellness

These Clinical Solutions Are Available to You

As a member of Blue Cross and Blue Shield of Oklahoma, you have access to a suite of wellness solutions. They can support you as you navigate medical conditions and diagnoses, and take care of your health **at no additional out-of-pocket cost**.

Case Management from Registered Nurses

This voluntary program can help you and your family deal with chronic or serious illnesses or injuries. Our team uses information from your doctors to decide if case management could be right for you. When enrolled, a registered nurse is assigned as your case manager. Your case management nurse can help you get the right care at the right time in the appropriate environment.

Case management nurses can help by:

- Answering your health-related questions
- Coordinating care between multiple doctors
- Helping you understand conditions
- Supporting you through lifestyle changes to help manage conditions
- Supporting you throughout your illness, from beginning to recovery
- Helping you make sure all your health care needs are met

Get Support for Medical Conditions and Diagnoses

Your case management nurse can help with many diagnoses, including:

- Cancer
- Respiratory illnesses
- Heart conditions
- Mental health conditions
- Injuries or emergency hospitalizations
- Pediatric conditions

Value-Packed Solutions at Your Fingertips

When it comes to achieving your health goals, there isn't a one-size-fits-all approach. We've got your back with digital tools for a variety of goals and conditions.

Digital Women's and Family Health from Ovia Health™

Ovia

Whether you are cycle tracking, trying to conceive, managing menopause, or navigating pregnancy, the Ovia app will customize your experience to deliver personalized insights, tips, and content. Look to Ovia for answers to common prenatal questions, weekly updates, solutions for symptom relief, and much more.

Ovia Parenting

From birth to teenage years, you can record important milestones, track baby's day and even plan for return-to-work.

Ready to get started?

1. Scan the QR code or visit connect.oviahealth.com/en/enroll/luminarehealth.
2. Enter your email, password and date of birth.
3. Select the app that's right for you.
4. Explore Ovia Health!

Behavioral Health Care

Match with behavioral and mental health professionals that meet your unique preferences and needs. Headway's secure platform helps you schedule an in-person or virtual appointment with an in-network provider within 48 hours.

Find Care Related to:

- Managing stress
- Challenges with family
- Managing anxiety
- Feeling down or lacking motivation
- And much more

Finding Care is as Easy as 1-2-3

1. Visit headway.co or scan the QR code on the right
2. Filter for your preferences, such as race/ethnicity, gender and language to find the right provider
3. Add your health plan details and select an appointment. Headway handles the rest!

From one powerful app, Teladoc Health CCM+ offers support, personalized guidance and care plans for those with pre-diabetes, diabetes and hypertension. CCM+ can help you create lasting change with weight management and mental health support and one-on-one live and digital coaching. Depending on your eligibility, you may see communications from Teladoc Health to enroll in one or more of these programs.

Connected Devices

When you enroll, you will receive the technology and tools for the programs that fit your unique needs all at no additional cost. Devices and materials may include a digital scale, blood glucose meter, and unlimited test strips.

Virtual Physical Therapy

You can receive personalized care for your back, knee, hip, shoulder or neck. With the help of a personal coach and physical therapist, you'll get personalized exercise therapy and feedback, digitally, through the Hinge Health app. Your treatment plan can help you reduce pain or recover from a past injury without drugs or surgery.

Hinge Health will reach out to eligible members with program details and next steps. With enrollment you'll receive:

Wearable Sensors to Guide Stretches

Connect wearable sensors to the Hinge Health app and get live feedback on your positioning during stretches and exercises.

Personalized Exercise Therapy

Three times each week, you'll be guided through 15-minute sessions.

Unlimited One-on-One Health Coaching

Get tailored support from your coach via text, email or phone call.

Cancer Services and Support

The Cancer Services and Support program is available to you at no additional cost through your health plan with Blue Cross and Blue Shield of Oklahoma. This program connects your treating oncologist with the latest research findings, suggested medications, tests, and clinical trials specific to your type of cancer for the best possible outcomes.

How it Works

When you get diagnosed with cancer, your case will automatically be sent to AccessHope, who assigns a cancer subspecialist at a National Cancer Institute – Designated Comprehensive Cancer Center to review your case. The subspecialist communicates with your doctor to provide offer treatment recommendations associated with improved clinical outcomes. Your oncologist will continue to manage and modify your treatment plan.

VirtualCheckup®

Getting a health checkup has never been easier! Included with your health benefits plan, you can sign up to get a VirtualCheckup® powered by Catapult Health at no additional cost to you.

Sign up today and you'll receive a home kit with everything you need to complete your virtual visit. Each VirtualCheckup® includes testing for total cholesterol, HDL, LDL, triglycerides, and hemoglobin A1c (blood sugar). You'll receive a personal health report with easy-to-understand information about your lab results and guidance to programs and tools included in your health plan to address your concerns.

Sign Up Today

1. Log in to **myBlueElementOK.com** and click on the VirtualCheckup® link on your home page.
2. When your kit arrives, log in to your **myBlueElementOK.com** portal and click the VirtualCheckup® link. Follow the prompts to finish activating your kit.
3. Follow the instructions on screen to complete your at-home testing and ship your samples to the lab. A nurse practitioner will reach out to review your results and guide you through the next steps.
