Know Your Medical FSA – Eligible and Ineligible Expenses

A medical flexible spending account (FSA) is an IRS-sanctioned benefit, meaning you can use pre-tax dollars to cover eligible expenses. The IRS states that eligible expenses must be primarily to alleviate a physical or mental defect or illness, such as diagnosis, cure, mitigation or treatment of a disease, or for treatments affecting any part or function of the body. You can be reimbursed for IRS eligible expenses specific to your plan which are not covered by other benefits. Expenses to promote general health are not eligible expenses unless prescribed by a physician for a specific medical ailment. To determine if a specific expense you are claiming qualifies as an eligible expense, please contact the Benefit Spending Account team at 877-267-3359.

Know Your Daycare FSA – Eligible and Ineligible Expenses

A dependent care flexible spending account (FSA) is an IRS-sanctioned benefit, meaning you can use pre-tax dollars to cover eligible expenses. The IRS states that eligible expenses must be for eligible dependent care costs. Childcare costs are eligible for reimbursement if a child is younger than 13 and you claim the child as a dependent on your federal income tax return. Costs of care for an adult dependent, including a spouse or a parent, qualify if the adult is physically or mentally disabled. Expenses for Kindergarten or private school programs that are strictly educational in nature are not covered. To determine if a specific expense you are claiming qualifies as an eligible expense, please contact the Benefit Spending Account team at 877-267-3359.
