

## Eczema affects people differently. Know which treatment works best for you.

Eczema is a group of conditions that cause the skin to become red, itchy, and inflamed. It is very common, and in many cases, can go away or become more manageable.

### What to look for:

- Dry, sensitive skin
- Very bad itching or inflamed skin
- Oozing, crusting, or scaly patches

With Teladoc, relief is  
no more than 2 days away

- 1 Log in to your Teladoc account
- 2 Pick your condition and fill out a brief questionnaire about it
- 3 Upload 3 images of your issue
- 4 A dermatologist will give you a diagnosis and treatment plan within 2 business days

**Get on the path to healthier skin, faster.**
