

We are with you in your fight against cancer

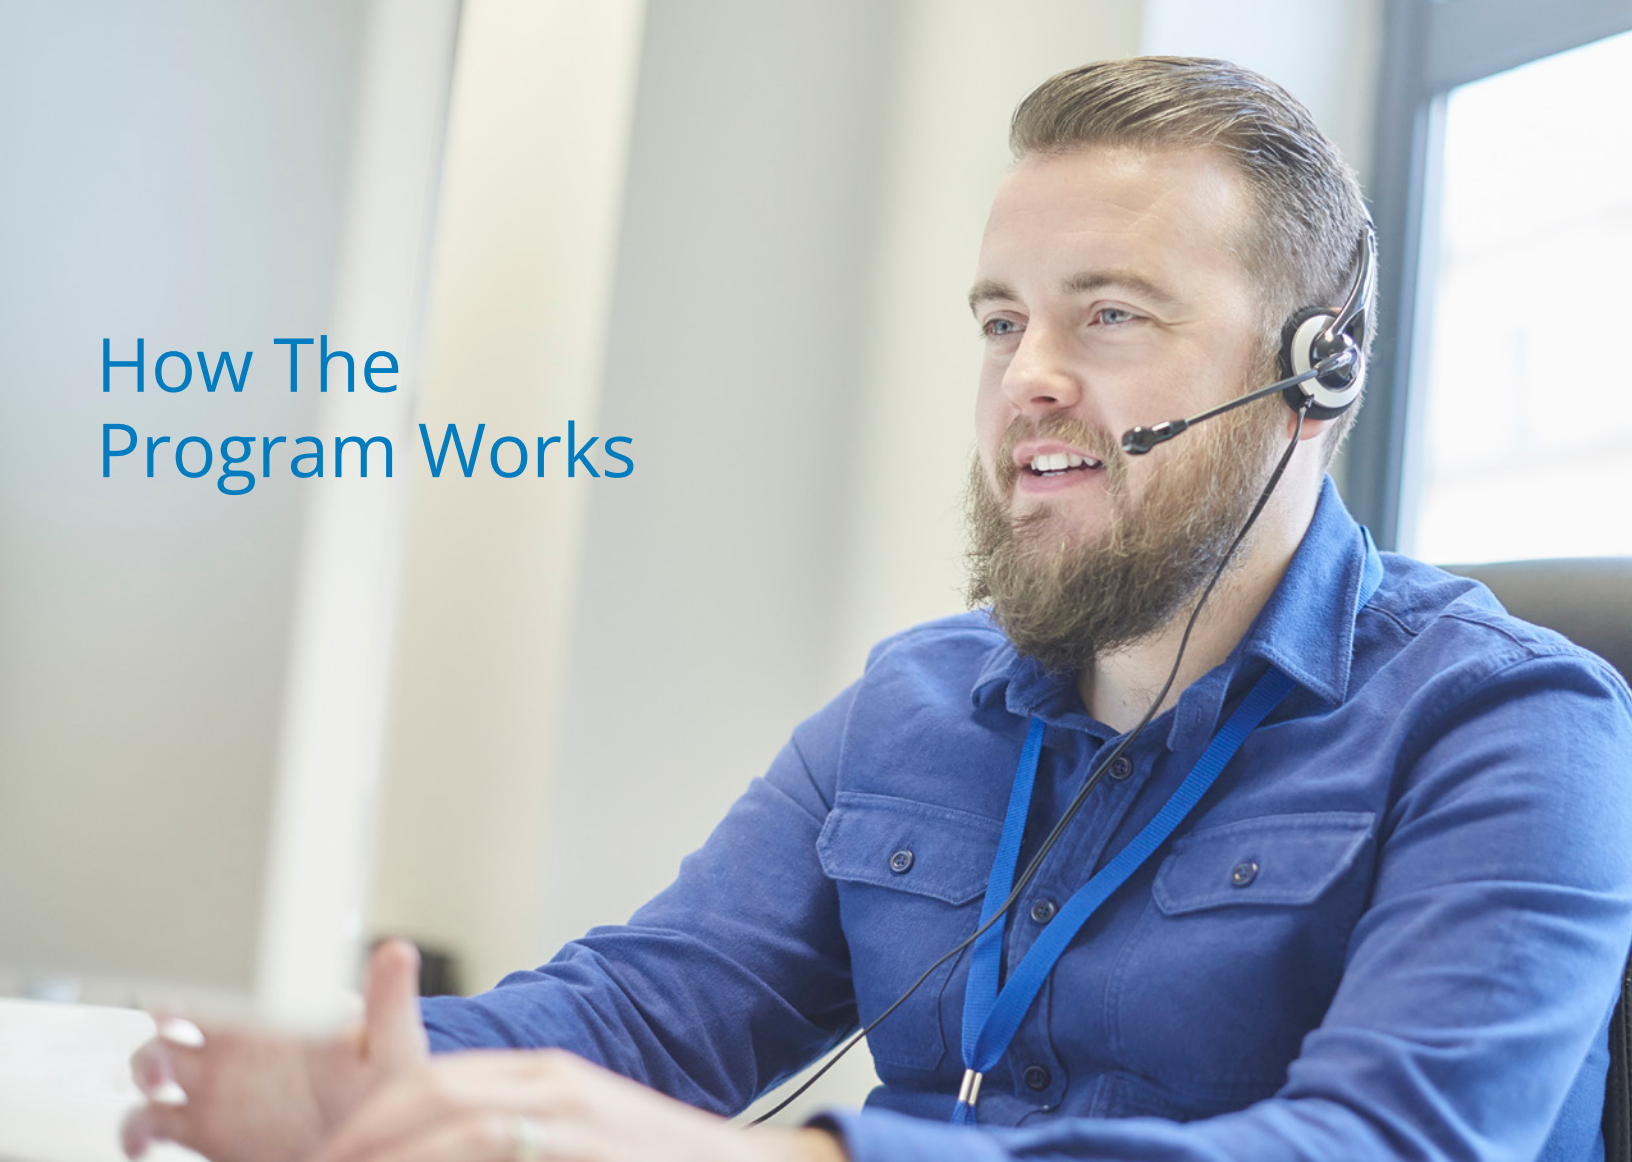

Getting a cancer diagnosis is never easy, but we are here to help.

The Cancer Services and Support program is available to you at no additional cost through your health plan with Blue Cross and Blue Shield of Texas. This program gives you the tools, resources and expertise to help you before, during and after cancer treatment.

Expert Review and Support

This program connects your treating oncologist with the latest research findings, suggested medications, tests, and clinical trials specific to your type of cancer for the best possible outcomes. You don't need to switch doctors or leave home.

How The Program Works

When you get diagnosed with cancer, your case will automatically be sent to AccessHope, who assigns a cancer subspecialist at a National Cancer Institute – Designated Comprehensive Cancer Center to review your case.

With their expertise in your type of cancer, the subspecialist will thoroughly review your case and offer treatment recommendations associated with improved clinical outcomes.

The subspecialist communicates with your doctor to provide recommendations based on groundbreaking insights and leading discoveries. Your oncologist will continue to manage and modify your treatment plan.

No Enrollment. No Hassle.

You don't have to lift a finger to participate in this program. Let us do the heavy lifting so you can focus on what matters.

AccessHope, LLC is an independent company that has contracted with Blue Cross and Blue Shield of Illinois to provide Member Health Information Content that supports members with coverage through BCBSTX.

BCBSTX makes no endorsement, representations or warranties regarding third-party vendors and the products and services offered by them.

Call 911 for medical emergencies. Health Advocates do not give medical advice or take the place of a doctor's care. Talk to your doctor or health care professional about any health questions or concerns.
