After downloading the app, you'll have to complete a quick initial registration process.

1. Select New Username And Password

Once you're signed in for the first time, you'll select a new username and password. When you're done, tap Submit.

The screenshot shows two stacked forms. The top form, 'Change Username', has a 'Username' field with 'zz0000000' and a note: 'Your username may contain alphanumeric characters and...'. The bottom form, 'Change Password', has 'New Password' and 'Confirm Password' fields, both masked with asterisks. A 'Submit' button is at the top right.

2. Log In

After updating your username and password, log into the app using your new information.

The screenshot shows the 'luminare health' app interface. It has a 'Back' button and a 'SAVING...' button. The 'Username' field contains 'zz0000000' and the 'Password' field is empty.

3. Answer Security Questions

After logging in, select three security questions in case you ever forget your password.

REMEMBER: Choose questions and answers you won't forget! When you're done, tap Submit.

The screenshot shows a 'Security Questions' screen with a 'Submit' button. It lists ten questions for selection: 'What is the model of your first car?', 'What is your mother's maiden name?', 'What was your first pet's name?', 'What is your paternal grandmother's name?', 'What is your maternal grandfather's name?', 'What was your first job?', 'What city were you born in?', and 'What is the first name of your spouse's mother?'. A note says: 'Please enter an answer to any 3 security questions to complete your account setup.'

4. Set A Passcode

A passcode lets you to access the app quickly without having to enter your password every time.

Pick a 4-digit code you'll remember. After you confirm your passcode, you're all done!

The screenshot shows a 'Please Create Your Passcode' screen. It has four empty boxes for the passcode digits and a numeric keypad below. The keypad includes digits 1-9, 0, and a backspace button.
