

OHIOHEALTHY MEMBERS HAVE ACCESS TO EXCEPTIONAL

CANCER CARE

Expert care from caring experts

OhioHealthy members can be comforted by the strength and support of in-network cancer care from OhioHealth or Cleveland Clinic.

Did you know?

- OhioHealth leverages genomic testing, also called molecular testing or DNA/gene sequencing, to recommend therapies that target each patient's specific cancer.
- OhioHealthy members have the option to receive in-network care, including cancer care, from OhioHealth or the Cleveland Clinic. Members with a rare cancer diagnosis may qualify for travel benefits.
- OhioHealthy members have access to cancer care from The James Cancer Hospital at The Ohio State University at an out-of-network rate. Members with a rare cancer diagnosis may qualify for an in-network rate pending evaluation and pre-approval from OhioHealthy.

OhioHealthy

OhioHealthy members receive more than healthcare coverage, they get an integrated health system

OhioHealth delivers exceptional care, support and convenient access to cancer care that is close to home.

At OhioHealth, our experts join patients along every step of their cancer journey, from prevention and screening, to diagnosis, treatment and survivorship. OhioHealth is committed to improving quality of life for cancer patients before, during and after treatment through programs such as:

- Survivorship and supportive care helping cancer patients and their caregivers through education, symptom management, side-effects, wellness and more.
- Integrative care such as acupuncture, massage therapy, oncology nutrition counseling, mind-body therapies and oncology counseling to improve physical, mental and emotional health during and after cancer treatment.
- Genetic counseling, testing and risk assessment.
- High Risk Cancer Clinic designed to help people with a higher risk of cancer.
- Oncology navigation and coordination of care from time of diagnosis to survivorship.
- Free second opinion clinics are offered for breast and prostate cancer.

Cancer care with greater convenience and less hassle

We believe exceptional cancer care should be close to home and the ones you love. Our facilities were created in partnership with patients for patients, dedicated to not only treating cancer but bettering the overall quality of life for patients, families and caregivers.

- OhioHealth has more cancer care facilities than any other hospital system in central Ohio.
- More than 70 cancer care locations providing easy access to care.
- Cancer program locations throughout Ohio that provide surgery, radiation and infusion therapy.
